

New School Fee & Lunch Payment Procedures

This school year, District 146 will be using a new and more convenient service for paying for school fees and funding lunch account called **PushCoin**.

SIGN UP

Follow these steps to create and link your parent account to your student.

1. Go to www.pushcoin.com. Use the **latest internet browsers** as they are the most secure.
2. Sign up as a parent or guardian. Either click on **I don't have an account** and fill out the form **or** use an accelerated sign up by clicking on the Facebook, Gmail, LinkedIn or Hotmail links.
3. Add your student to your PushCoin account by clicking **Add User**. Enter the unique PushCoin Registration Code emailed by PushCoin Support. If you don't have the unique code, click **Request Student Access**.
4. Information about the student should appear on the screen. Verify the information is correct and click **Confirm**.

If you have multiple students, repeat steps 3-4 for each of the students.

PAYING FOR SCHOOL FEES

When school fees appear on your students account you will see a red negative balance under **Fees Balance**. You can review the assigned fees under **School Fees** tab. To pay for school fees, click **Pay Fees**.

If you are using a credit or debit card to pay for school fees or add funds to your student's wallet, you will need to enter the CVV number that's on the back of the card.

FUNDING

Set up your payment method by clicking on **Accounts** and then click on **Add Account**:

- **Electronic check (eCheck)**. The eCheck funding option is always FREE for parents and all school districts working with PushCoin
- **Credit Card (Visa, MasterCard, Discover)**. There is an additional fee of 2.9% + \$0.25 per transaction to use credit or debit cards. This fee is charged by the card processor (Not PushCoin). District 146 does not make any profit on this fee. The fee will be in addition to the original transaction amount. You will be able to see the total cost before submitting the transaction.

What to expect when using PushCoin?

- PushCoin.com is a **mobile-friendly website**. You can use a smartphone or a tablet to pay for school fees or fund and monitor your students' lunch account. The site will adjust to your device's screen and act like an APP.
- Every student in PushCoin has two sub accounts: **Wallet & Fees**. The **Wallet** is a discretionary spending account. If you have ever sent your children to a camp and provided money for a "camp store" this is essentially what the wallet provides, except YOU determine how funds are used, they don't belong to the district. The **Fees** account is used by your school district to communicate owed fees. The Wallet funds can be used also to pay for school fees and optional items listed on your school district's webstore.
- You will be notified via email when your child makes a purchase using their PushCoin wallet funds or when your account balance is low. To adjust the frequency of your email notifications, log into your PushCoin account and click on **Settings**.
- You may check your student's transaction history by logging into your PushCoin account and clicking **Transactions**.
- You can deposit funds to your student wallets by clicking **Fund Wallet** .
- You can transfer wallet funds between your students by clicking **Move Money**.
- If funding electronically, the minimum transaction amount is \$35. This minimum exists to allow your school district to keep E-Check transactions free of service charges, and keep the credit card charge to a minimum. There is no minimum transaction amount when funding by physical check.
- If you have an outstanding balance in your student's **Fees** account, you will be sent an electronic invoice once a month.

If you have questions about your PushCoin account, contact the District 146 administrative office at 708-614-4500 or PushCoin via email at ask@pushcoin.com.
