

FULTON CONSTRUCTION RELOCATION PLAN FOR STUDENTS AND STAFF

- **Fulton Kindergarten students will re-locate to Memorial school where they have two classrooms to accommodate the students. This keeps students within Tinley Park District 146 for a half day of school.**
- **Only during the construction period, Fulton Early Learning students would attend Kruse or possibly Fierke.**
- **Eight Modular classrooms will house students and/or services at Sandidge School. The committee felt that the 4th and 5th graders would be more able to handle having classrooms in the Modular units.**

Below is a summary of what the committee saw as benefits of using 8 Modular Classrooms:

- **First through fifth graders would be housed at Sandidge**
- **The gym will be used exclusively for PE.**
- **A lunchroom/multipurpose room will be created out of the two larger classrooms. When not being used for lunch possible usage could be for PE, Music, Resource, Band and After School programs.**
- **A multipurpose room will allow for a mini staff work room to accommodate the extra equipment necessary for the additional staff needs.**
- **Resource personnel, ORE, ELL, Special Ed and assistants, will have office space as well as space for small group pull out instruction and space for the Reading Tutors.**
- **The Media Center will stay a Media Center**
- **This option provides the strongest consistency for students, as well as the nearest student/staff ratio and instructional services that are provided to students across the district. It is also the most tolerable if the project goes longer than a year.**
